

Residential Testimonial - J62

The Below letter was sent by a satisfied residential customer, for a J62 unit bought 11/02/11

Honolulu, June 1, 2012

Hi Helena:

I love the pool one. The water is so clear now! I can even see tiny insects floating under the surface that I could not see before. I don't have to use chemicals (super blue) anymore to make micro debris sediment down. Also I now use only 1/3 the amount of non-chlorine shock. Next I will slowly reduce the amount of chlorine tabs that I use.
