

Residential Testimonial - J62

The Below letter was sent by a satisfied residential customer, for a unit bought 11/09/10

Honolulu, February 11,2011

As I told Harold on the phone, the Hydroflow unit has been operating for 2 months on my salt-water swimming pool plumbing.

The pool water is sparkling-clear, and the white scale on the water-line tile is much reduced...almost gone.

I like the results, and will continue to marvel at the cleanliness and clarity of the water.

Sincerely,

Robert Morrison
Honolulu, HI
